# Foundation is everything

---

- A Textile Engineering Graduate from Gulbarga University, Raichur, his role in establishing the company in 1993 at Nagpur, Maharashtra is vital.
- A visionary with an entrepreneurial acumen, under his management the company has grown leaps and bounds.
- His ability to take a right decision at the right time, adapting to each situation, and coming up with effective solutions has helped the company in its path to success.
- His approach to business, strategies, and ethics has set up the pattern for business behavior of the company.
- His values and legacy will continue to influence the subsequent generations of our leaders.

# Our yarn story in brief

• Started in 1993, Suryaamba Spinning Mills Ltd. is a leading manufacturer of specialty synthetic spun yarns.

• The core competitive strength of the company is its innovative product range, specifically tailor-made for the customers.

• The company has a capacity of 52500 spindles  
38000 spindles on dyed yarn  
7000 spindles on home furnishing  
7500 spindles on raw white yarns  
Company has 70 TFO's

• We produce 14400 MT of quality yarn per annum out of which 8000 MT is double yarn 6400 MT is single yarn.

# The moral fibre behind our success

## Our philosophy

- Our business is built on the strong values of integrity, ethics, innovation, and transparency.
- We apply the principles of lean manufacturing to create a system that utilizes the minimum amount of resources necessary to satisfy the customer requirements.
- Continuous improvement (Kaizen philosophy from Japan) is encouraged and propagated throughout the culture of the company.
- Our strategy of Just-In-Time Production has helped us to adopt pull system and minimize all types of inventories in the plant.

• Our innovations in the manufacturing methods have helped us to pass cost savings to our customers.

• We unwaveringly continue to create value for our stakeholders, and always strive toward progress.

# Strive for perfection

## The quality & customer centricity

- All employees, including our promoters, understand that quality management is very essential for the success of our business.
- Our Statistical Quality Control Department has the latest testing equipment to ensure monitoring of the vital parameters for producing a product of perfect score for the customer.
- Carefully planned steps are taken to ensure that the yarn delivered to our customer is consistent, reliable, and truly adheres to its specifications.
- Round the clock stratified data collection procedures are carried out to analyze the process for consistency.
- USL and LSL are specified to the Supervisors at every stage of the process to ensure that only the products meeting conformity are sent to the next process.
- Regular customer surveys are conducted to understand the parameters of quality important to the customer.

# Our Facility

- Our state-of-the-art spinning infrastructure includes machinery from Lakshmi Machine Works, Muratec, Schlafhorst, Seiger, and Saurer Peass.
- We have invested in TFO technology, various type of slubs, siro yarns, compact spinning & core spun yarn over the last couple of years.
- Re-innovation is at the heart of our culture. Therefore we have a state of the art R&D Department focusing on New Product developments.
- We stress on the maintenance, enhancement & investment in innovative technology

# Our Products

Multi neps, and hairy yarn can be made on special request and are frequently being made Customized effects can be designer by analyzing the resultant fabric.

## End Applications

- a ) Apparel (Suiting/ Shirting / School Uniforms )
- b ) Weft & Warp yarns
- c ) Hosiery yarns ( Circular knit yarn, Flees fabric yarns )
- d ) Denim end application ( Core spun yarn )
- e ) Automotive yarns
- f ) Home textiles
- g ) Sewing Thread
- h ) Simplex Roving can also be supplied
- i ) Industrial use ( Nylon yarns ; for conveyor belt end application )
- j ) Towels
- k ) Mattress Sticking
- l ) Shawls
- m) Raw material for Chenille yarns
- n ) Flat knit yarns ( Sweater knitting, garments )
- o ) Indian Tradition Wear [Sari & Kurta]

# Places we go

---

- Our focus towards transparent communication, top-notch quality, and timely delivery has been vital in establishing and growing our export revenues.
- Since inception, our obsession for providing the world-class quality products has helped us to expand into several new markets around the world.
- Our Customer Technical Service team provides technical assistance to our customers and ensures that the yarn from our plant surpasses the customer expectations.
- Our company exports about 6200 MT yarn per annum to markets such as Turkey, Morocco, Brazil, Germany, Spain, Italy, Belgium, Nigeria, Egypt, Bangladesh etc.
- We have fostered very strong relationships with our international customers over time and enjoy an extremely high retention rate.
- As a result, about 55% of our exported yarns are tailor-made to cater to our international customers' needs.

# Social Conscience & Sustainability

- GRS certified
- Continuous focus on reducing process waste
- Increasing the consumption of environment friendly raw material with traceability; such as Liva eco, Recycle Polyester, Dope dyed viscose etc.,
- Emphasis on reducing carbon foot print by planting trees, using energy efficient alternatives such as LED lights, signing PPA with sustainable & renewable sources of energy.

- Our commitment to social responsibility is as strong today as it was when our company was founded.

- To make a difference, we invest in and try to enrich our workplace, our community.

- We encourage gender equality, and hence women employment remains strong in our company.

- Yearly health checkups and eye camps are conducted, because our employees' well-being is very important for us.

- We promote cultural activities in the premises of the plant to ensure bonding within the community.
